Managed Detection and Response (MDR)

PONDURANCE

Proactive. Personal. Around-the-Clock.

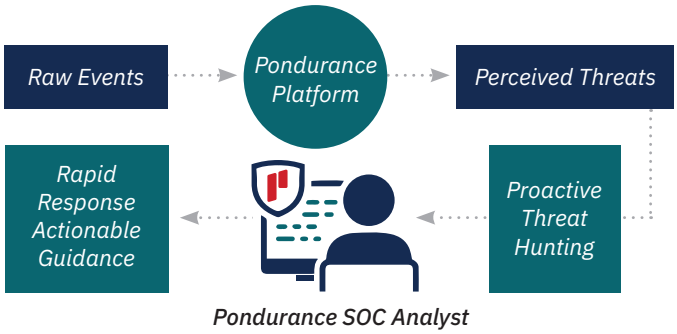

Business leaders like you face many challenges when trying to secure digital assets and operations from cyber threats. Security talent is expensive to hire and retain, and products alone cannot stop a motivated attacker. As a result, many organizations are turning to MDR services to help keep their data and assets safe and compliant. Recognized by Gartner, Pondurance MDR delivers proactive security operations services powered by authentic human intelligence.

Technology alone is not enough to stop cyber threats. Human attackers must be confronted by human defenders.

BENEFITS

- Stop security incidents through 24/7 detection and response
- Maximize internal resources and security investments
- Improve compliance through reporting
- Rapidly accelerate security program maturity
- Lower total cost of ownership (TCO)

THE PONDURANCE DIFFERENCE

24/7 U.S.-based security operations centers (SOCs)

Our SOCs never take a day off. Pondurance MDR is powered by analysts, threat hunters and incident responders who utilize our advanced cloud-native platform technology to provide you with continuous cyber risk reduction. Our efforts have helped law enforcement at the state and national levels track down cybercriminals and unveil numerous zero-day vulnerabilities.

360-degree visibility

Pondurance provides extended detection and response (XDR) across fully managed and monitored solutions for:

Networks – Network traffic analysis (NTA) sensors

Endpoints – Endpoint detection and response (EDR)

Logs – SIEM-as-a-service platform

Cloud infrastructures – Including AWS, GCP and Azure

Rapid Response and Close Collaboration

Pondurance helps you reduce the time it takes to respond to emerging cyber threats through instant triage and close collaboration with our experienced SOC analysts. Our Digital Forensics and Incident Response (DFIR) services can complement MDR to provide closed-loop incident response. Rapid human intervention is often the difference between swift containment and business impact.

Integrates with your existing infrastructure and controls

No need to rip out your existing security investments. Pondurance integrates with your cloud and traditional security controls.

WITH PONDURANCE AS YOUR CYBERSECURITY PARTNER, YOU CAN STAY ONE STEP AHEAD OF ATTACKERS AND LET YOUR TEAM FOCUS ON WHAT REALLY MATTERS.
